THE HANAMI STORY

a Celebration of family, fortune & fun!

Many years ago, before there were skyscrapers, cars and computers, before there were electronic games and television, extended families lived together, dined together and enjoyed walks in the woods together. People of many different cultures shared the appreciation of beautiful forests, home to towering old trees that had witnessed hundreds of years of history. The Chinese and Japanese especially revered the great beauty of the flowering cherry tree. The elders believed that the spirits of their ancestors inhabited the tree's limbs and branches, ready to offer counsel when asked, and the luscious fruits of the tree were viewed as precious gifts, portending great fortune. Thus began a tradition of "Hanami," a festive gathering of people of all ages in a special place to celebrate the joys of family, fortune and of course, food.

Welcome to our contemporary Hanami, an experience like no other. A "celebrasian" of all that is good in life: precious family, dear friends and mouth-watering food prepared with "inspirasian" and "imaginasian." Bring your friends and loved ones and we'll provide the "Hanami Experience," an inviting and magical environment complete with the freshest and most unique sushi, traditional Chinese dishes, and incredible tea blends. We offer everything you need and a few things you won't expect, to make it a time you will remember. All guests of Hanami will leave happy and enriched.
